Maximum Security. Maximum Speed.

Antivirus
Antispyware
Anti-phishing
IM Encryption
Antispam
Firewall
Parental Control

BitDefender Internet Security 2010 keeps your Internet-connected family safe, without slowing down their PCs. It locks out viruses, hackers & spam, while providing parental control and firewall protection.

Confidently download, share and open files from friends, family, co-workers – and even total strangers

- Protects against viruses and other malware using industry-leading technology
- Scans all Web, e-mail and instant messaging traffic in real-time
- Provides an unmatched detection rate of new threats based on two different proactive technologies
- Seeks out and removes malicious programs (rootkits), which are designed to stay hidden while controlling your PC
- Blocks spyware programs that track your online activities

Protect your identity: shop, bank, listen and watch, privately and securely

- Blocks webpages that attempt to steal your credit card data
- Prevents personal information from leaking via e-mail, Web or instant messaging

Guard your files and conversations with top-of-the line encryption

- Instant Messaging Encryption keeps your conversations private on Yahoo! and MSN Messenger
- File Vault securely stores personal information or sensitive files

Connect securely to any network at home, at the office, or away

- The two-way firewall automatically secures your Internet connection wherever you are
- Wi-Fi monitor helps prevent unauthorized access to your Wi-Fi network

Protect your family and their computers

- Parental Control blocks access to inappropriate websites and e-mail
- Limits kids' access the Internet, games, etc. to specific times
- Makes it easy for you to manage the security of your network from a single location

Play safely, play seamlessly

- Reduces the system load and avoids requesting user interaction during game play

Get fine-tuned performance from your computer!

- Optimized scanning technology skips safe files for better scan speed and lower system load
- Antispam stops unwanted e-mail from reaching your Inbox
- Laptop Mode prolongs battery life

New and Improved in BitDefender 2010

More Protection: Active Virus Control

This innovative technology monitors each program running on your PC for malware-like actions. If enough such actions are detected, the program is declared harmful.

More Speed: Optimized Scanning

Avoids scanning files known to be safe, improving scan speed and reducing system load. BitDefender provides a continuously updated database of known safe files.

Easier to Use: Usage Profiles

Whether you're a security expert or a novice, BitDefender makes it easy for you to manage your PC security. The new Gamer and Parent profiles allow the product's interface and functionalities to adapt to the main activities you are likely to perform on your PC.

* Certifications and awards granted to the BitDefender 2009 products

Minimal system requirements

- Windows XP SP2, Vista, Windows 7
- 800MHz processor
- RAM:
 - o 512 MB (Windows XP)
 - o 1 GB (Windows Vista and Windows 7)
- 450 MB available hard disk space
- Internet Explorer 6

Recommended system requirements

- Windows XP SP2, Vista, Windows 7
- Available free hard disk space: 600 MB free space
- Intel CORE Duo (1.66 GHz) or equivalent processor
- RAM - 1GB (Windows XP and Windows 7) - 1.5 GB (Windows Vista)
- 600 MB available hard disk space
- Internet Explorer 7

Software requirements

- Yahoo Messenger 8.5
- Windows Live Messenger 8
- Firefox 2.5
- Thunderbird 2.0.0.17
- Outlook 2000, 2003, 2007
- Outlook Express
- Windows Mail
