COMPLETE PRIVACY

Safebox keeps your private data private! It shields your files away from prying eyes by encrypting them when they are uploaded, as well as when they are stored on remote servers.

ONLINE BACKUP AND SYNCHRONIZATION

Store critical data off-site on a secure server, plus sync files between your devices.

REAL-TIME BACKUP

Safebox monitors your files and instantly backs them up the moment a change is detected. This way you will always have the latest version of your valuable documents stored online—safeguarding you from the unexpected.

SYNCHRONIZE MULTIPLE FOLDERS

Unlike other synchronization applications that only synchronize one folder, Safebox allows you to backup and sync an unlimited number of folders, no matter where they reside on your PC.

SEND LARGE FILES WITH EASE

Ever wanted to share a file that was just too large to send over e-mail? Safebox is your solution! Simply right-click a file and share it with whoever you want!

MINIMAL SYSTEM REQUIREMENTS

PCs

Windows XP / Vista / 7

High-speed Internet connection recommended

Android Smartphones

Android 2.2 and above

iPhones or iPads

iOS 4.0 and above

MANAGE YOUR FILES... FROM ANYWHERE
