WEBSITES & APPS BLOCKING AND MONITORING

Because you can't be there 24/7, Bitdefender Parental Control allows you to see what sites your kids visit online, as well as what apps they are using. It also allows you to create a block apps and/or websites, so you'll know your kids will be safeguarded while on the Web.

SMS & CALLS APPLICATION BLOCKING & MONITORING

With Bitdefender Parental Control, you have the ability to block suspicious contacts on your kids' mobile devices, in addition to monitoring all incoming and outgoing SMS and calls.

INSTANT MESSAGING BLOCKING&MONITORING

Know and control who your kids instant message with! In addition to blacklisting specific IM contacts (Yahoo! Messenger and MSN), you can also block incoming messages based on specific keywords.

SOCIAL NETWORK TRACKING

Bitdefender Parental Control gives you full "vision" into your kids' social network activities. From new friend requests… to posted comments, pictures, and videos, to changes in privacy settings… you'll be in the know!

LOCATION TRACKING (GPS-BASED)

Where the phone is,your child is! Locate your child`s device, and view its location.

ACTIVITY REPORTS & ALERTS

Choose to receive daily, weekly, or monthly activity reports and notifications (hourly) regarding your kids' online activities, including all websites they visited, what they search for, who they chatted with, received SMS messages from, and locations they visited.

ACTIVITY HISTORY

Feel like your kids are always on the Web? View their Activity History to view a snapshot of their online activities, who they communicate most often with, and where they spend a majority of their time.
