

Bitdefender at the RSA® Conference 2012 Booth #654

Bitdefender consistently creates number-one-ranked and award-winning security solutions. Since 2001, Bitdefender has continuously raised the bar in security. From individuals to the largest enterprises, Bitdefender innovations foster confidence, and the freedom to conduct business, by defending data and brand integrity. Today, Bitdefender technology secures the digital experience of around 400 million home and corporate users across the globe. Bitdefender solutions are distributed by a global network of value-added distribution and reseller partners in countries across the world.

Bitdefender at a glance

- The #1 antimalware security technology in the world
- First security software vendor to receive top recommendations simultaneously from the most important three key independent organizations in the **US, UK, and Germany!**
- Technology OEM'd by top vendors, such as F-Secure, G Data, Qihoo, Bullguard or IBM
- The only security technology to win all 14 Virus Bulletin's antispam awards in a row
- Bitdefender protects >400 million people worldwide (including technology partnerships)

Bitdefender Enterprise Solutions at a glance

- Launches the first commercially available VMware vShield™ 5 (Endpoint 2.0) integrated Security for Virtualized Environments by Bitdefender (bitdefender.com/sve)
- The solution offers comprehensive security for virtualized datacenters to protect Windows servers and desktops, as well as Linux and Solaris systems.
- The unique architecture of Security for Virtualized Environments allows it to defend systems running on any system virtualization technology (incl. Citrix, Microsoft, Oracle)
- At the RSA Bitdefender demonstrates also Cloud Security for Endpoints by Bitdefender solution for delivering Security-as-a-Service (bitdefender.com/cloud)
- Previous on-premise SMB solutions were launched in March 2011 with integrated network security, audit and systems management capabilities (bitdefender.com/business)

Bitdefender executives at RSA® Conference 2012

Rares STEFAN, Director of Enterprise Solutions

As the Director of Bitdefender Enterprise Solutions Unit, Mr. Stefan is responsible for overseeing the product portfolio and product strategy for the solutions targeting Small to Very Large Enterprises and Service Providers. Prior to joining Bitdefender, Mr. Stefan was the founder and chief scientist at Third Brigade, Inc. – which was acquired by TrendMicro – where he focused on the commercialization of multi-platform HIPS as well as researching network introspection, hypervisor-based network and VM security and security event correlation systems. Mr. Stefan has always been a serial entrepreneur at heart starting when he was a physics/comp science student at Concordia University where he started in a garage and built a leading IPS company.

Shaun DONALDSON, Director of Enterprise Marketing and Communications

As the Director of Enterprise Marketing and Communications at Bitdefender, Mr. Donaldson is responsible for direction of the marketing and communications for the new Bitdefender Enterprise Solutions designed for virtualized environments and for very large enterprises or service providers. Previously Mr. Donaldson has been in various technology alliances, enterprise sales and marketing positions within IT security industry, including Trend Micro, Entrust, Bell Security Solutions and Third Brigade.
