Bitdefender SMB Professional Services and Consulting

With the advent of malware in the digital world, small and medium-sized companies might be easy targets for hackers. Studies show that at least 50% of small and medium-sized businesses fall victim to cyber-attacks.

But, with the right security in place, even small businesses can stay protected from all kinds of attacks, from Ransomware to Advanced Persistent Threats.

Bitdefender protects all the things that keep your business going: workstations, servers, mailboxes, and mobile devices. It provides top protection and is light on your resources.

TOP EXPERTISE AT YOUR SERVICE

Your organization will benefit from the highest level of protection and performance running Bitdefender's GravityZone security solution. Experts are ready to help you get up and running with the GravityZone security solution in your environment.

Main benefits

• Top performance and maximum security for your organization

• Time-saving, efficient implementation of the GravityZone security solution

• Quick return on investment

SMB CLOUD START

You shouldn't need to worry about your security solution performing. Experts will help you install and configure your Bitdefender solution for the optimal protection and performance your business applications need. The SMB Cloud Start service offers customers the benefit of expert guidance throughout the beginning of the implementation, ensuring a smooth and trouble-free start.Skilled engineers will follow best practices and keep your business needs in mind as they implement the security solution in your environment.

SMB Cloud Start is a remote service that will deliver the GravityZone product installations on up to five (5) customer endpoints. This service is ideal for customers who would benefit from expert guidance throughout the start of deployment.

SMB Cloud Start is limited to a maximum duration of two (2) hours and up to five (5) endpoints.

During service delivery, the certified engineer subcontracted by Bitdefender will:

- Install and configure the GravityZone management console,

- Create packages,

- Install 1 relay,

- Install up to 5 endpoints.

* Customers are entitled to request the service within thirty (30) days of the purchase date.

* SMB Cloud Start is only available in the United States and Canada.

"The antivirus solution is running in the background and it is nearly invisible to the users. In addition, the IT department is no longer burdened with extra work. This is exactly how it was meant to be." — Christian Zenker, IT Specialist, ZIEMANN GRUPPE
